1. These Rules may be cited as the Water Supply Rules. Short title.
2. In these Rules, unless the context otherwise requires — Interpretation.

“consumer” means the owner, lessee or occupier of any premises, the receiver, attorney, agent, manager, guardian, or committee of such owner, lessee or occupier, or any other person in charge or having the control or possession of any premises in the right of the owner, or having possession in his own right or in that of his wife or any other person;

“distributing pipe” means any pipe conveying water supplied by the Minister and directly connected to the supply pipe and owned by the consumer;

“Minister” means the Minister responsible for Water and Sewerage;

“premises” means any dwelling house, hotel, shop, office, or any place of business, together with its appurtenances;

“service pipe or main” means any pipe line of the water supply system owned and controlled by the Minister and intended for the distribution of water;

<sup>1</sup> Made under section 35 of the Water and Sewerage Act, 1933 (No. 7 of 1933) and continued in force by section 41 of the Water and Sewerage Act, 1976 (No. 6 of 1976).

“supply pipe” means a pipe directly subject to water pressure from a service pipe or main and owned by the consumer;

“water for domestic purposes” means a supply of water for use on premises for the reasonable drinking, washing, cleaning, cooking’ and sanitary requirements of the consumer.

Supply of water to premises.  
G.N. 2/1963.; S.I. 41/1969.; S.I. 74/1976.

**3.** (1) The Minister when requested in writing may agree to supply water to a consumer for domestic purposes or any other purpose in accordance with the Water and Sewerage Act.

(2) Water will not be supplied through any one metered connection with the supply main to more than two water closets.

(3) Where more than two water closets are installed in any new building on one proposed metered water connection or in any part of any new building such part being on one proposed metered water connection, then no water connection will be made until an independent water supply system has been installed to supply all the water closets in such new building or such part of a new building.

(4) If a third water closet is installed in a building or part of a building on an existing water connection then the connection will be cut off unless an independent water supply system is installed to supply all the water closets in the said building or part of a building.

(5) The Minister may under special circumstances exempt owners from the provisions of subrules (2), (3) and (4).

Plumbing to be done by persons holding a licence.

**4.** For the purpose of these Rules no plumbing or fitting of any description whatsoever, in relation to, or in connection with, the water supply system, shall be done either inside, or outside of any premises except by a person or persons holding a licence to carry out such work which shall have been issued by the Minister. This rule shall apply to all existing installations, repairs to same, and to all new works.

Stop valve on supply pipe.

**5.** Every supply pipe shall be fitted, inside the premises, with a stop valve with an area of water-way of a size and type to be approved by the Minister and such stop valve shall, if below the surface of the ground, be suitably protected by a cement concrete box of approved type and size and fitted with a proper cover.

- 6.** The Minister shall be responsible for all repairs to a service pipe or main, but such responsibility shall cease at the consumer's side of the meter at a point where the supply pipe is connected. Repairs to service pipe or main.
- 7.** No supply pipe or distributing pipe shall be laid so as to pass through any sewer or drain or any man-hole connected therewith or into or through any ashpit or manure hole, or be laid or allowed to remain in contact with any foul soil or injurious matter. Where the laying of such pipe through foul soil cannot be avoided, such pipe shall be sufficiently protected from contact with such soil either by being carried through an exterior cast iron pipe or other approved means. Laying of supply pipe.
- 8.** Every pipe hereafter laid or fixed in connection with water supplied by the Minister shall when laid in open ground be laid at least one foot below the surface and be protected against immersion by salt or brackish water. Depth of pipe.
- 9.** No pipe for the conveyance of, or in any way connected with the water supplied by the Minister, shall connect with any pump, pipe, fitting or other receptacle used or intended to be used for the conveyance or reception of any water other than that supplied by the Minister except with the permission of the Minister in writing. No connection with other water supply.
- 10.** Unless otherwise specially authorized, no pipe through which water is supplied by the Minister to any water closet, slop hopper, slop sink or urinal, shall connect with any part of such water closet, slop hopper, slop sink or urinal or with apparatus connected therewith except the flushing cistern thereof. Supply through cisterns flushing to water closets.
- 11.** (1) Consumption of all water used will be measured by a meter which is the property of the Minister, and the consumer is bound to accept the registered figure as correct, unless it is proven to the satisfaction of the Minister that there is some defect in the mechanism of the meter. Record of meter to be accepted as correct.
- (2) If a meter for any reason ceases, omits or otherwise fails to register the quantity of water consumed, a consumer shall pay in respect of water supplied a reasonable sum in respect of any such period (not exceeding three months) of meter failure, based on the amount of the consumption of such consumer to be ascertained by comparison with periods of like duration. *S.I. 53/1982.*

Sale of water.  
*G.N. 2/1963.*

**12.** Except with the permission of the Minister no consumer shall be permitted to sell water to any other person. Such permission may be granted on such terms and conditions as the Minister may deem fit.

Interference with  
metres.

**13.** No meter shall be removed or interfered with under any circumstances, except by a person in the employ of the Minister.

Notice of  
discontinuance or  
supply.  
*S.I. 41/1969.;*  
*S.I. 74/1976.*

**14.** (1) The owner of any house or premises supplied with water by the Minister, or any other person liable for payment of charges for water, shall give to the Minister notice in writing of his intention to discontinue the use of such water or of the intention on the part of the occupier to vacate such house or premises, seven clear days before such discontinuance or such vacation and if such person neglects to give such notice, he shall be liable to pay for all water registered by the meter until the use of the water is discontinued or the house or premises become vacant, as the case may be whichever is the later date.

(2) The notice required by paragraph (1) of this rule shall be of no effect unless it be in writing signed by or on behalf of the person liable for payment of the water charges and be left at or sent by prepaid registered letter post to the office of the Minister.

Supply to Public  
Departments.

**15.** Public Departments may be supplied with water from the street hydrants for public purposes on such terms and conditions as may be agreed upon between the Minister and the Public Departments in question.

Supply of water  
to builders.

**16.** Water may be supplied to builders for the purpose of erecting new buildings or altering or extending existing buildings at the rate of twelve dollars and forty cents per 1000 gallons or a part thereof, exclusive of the charges payable for the connection of any supply pipes.

Inspectors.

**17.** Any person appointed by the Corporation for the purposes of section 6(1)(e) of the Act, to inspect and examine pipes, meters, fittings, works and apparatus for the supply of water shall be dressed either in the uniform clothing of the Ministry or provided with an authority signed by a responsible official of the Ministry, which said authority must be produced if required by the owner or occupier of any premises which are being inspected.

**18.** The consumer shall maintain in good order and condition all pipes, faucets, valves, flushing cisterns and fittings of every description within the premises and shall be liable for all waste whatsoever the cause. The inspector appointed by the Minister shall have the right of access at all times to the premises to examine for waste and shall have authority to serve notice upon the consumer to repair any defect within forty-eight hours. If the consumer neglects to remedy such defect within the time specified in the notice, then the Minister shall have the power to enter and cut off the supply.

Waste of water.

**19.** (1) Accounts for water supplied and for other charges due to the Corporation shall be rendered monthly or quarterly as the Corporation may direct.
